RE: June 29, 2004, Hazardous Waste Compliance Inspection  
Robbie Manufacturing, Inc.; Lenexa, KS; Johnson County  
EPA ID Number: KSD054080148

Dear Mr. Jones:

On September 16, 2004, I received your response to my letter dated August 20, 2004 regarding the above referenced inspection. After reviewing your letter and your Class 1 Air Operating Permit, we have concluded that you are adequately monitoring for leaks from the subject equipment under that permit. Based on this fact, Violation 8 is being rescinded. As long as you continue to comply with your current and future Air Operating Permit for the pumps and piping discussed in my previous letter, you will not need to comply with any additional requirements under 40 CFR 265 Subpart BB.

You have now corrected all violations resulting from the above referenced inspection. If you have any questions concerning this letter please contact me at (785) 296-4332.

Sincerely,

Rebecca Wenner  
Environmental Scientist
